

Nimbus Technologies Annual Report FY2025

Executive Summary

Nimbus Technologies, headquartered in Bengaluru, India, reported total revenue of USD 68.5 million for fiscal year 2025, a 27 percent increase over FY2024. The company was founded in 2015 by Meera Iyer and Rohan Pillai and currently employs 1,240 people across four offices: Bengaluru, Pune, Singapore, and Austin. Net profit stood at USD 9.2 million.

Quarterly Performance

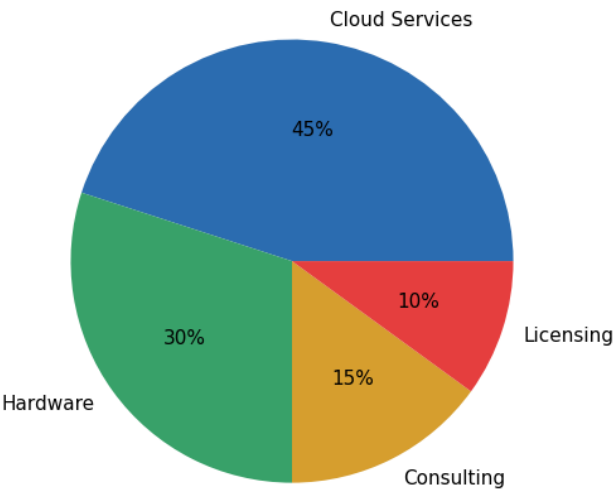

Revenue grew steadily every quarter, peaking at USD 22.3 million in Q4 following the launch of the NimbusFlow platform in October 2025. Q1 was the weakest quarter at USD 12.4 million because of delayed enterprise contracts.

Segment Breakdown

Cloud Services was the largest segment at 45 percent of revenue, followed by Hardware at 30 percent, Consulting at 15 percent, and Licensing at 10 percent. Management plans to raise Cloud Services above 55 percent by FY2027.

Key Risks

The board identified three principal risks: supply chain disruption for hardware components, currency fluctuation between the Indian rupee and US dollar, and increasing competition from hyperscale cloud vendors. The CFO, Anita Deshmukh, stated that a hedging program covering 60 percent of foreign exposure was put in place in Q2.
